Coin Presentation *Redefined*

The NGC Multi-Coin Holder

Just one of the ways our rare commitment is redefining the hobby.

The NGC Multi-Coin Holder is the premier presentation option for sets of certified coins. Any imaginable combination from two to five coins can be encapsulated within one holder, and six-coin holders are also available for Proof and Mint Sets.

Made from the same state-of-the-art plastics as the NGC's single-coin holders, the NGC Multi-Coin Holders are sonically sealed, tamper-evident, and include a security hologram. Each coin is given its own certification number, making coins eligible for individual inclusion in the NGC Registry.

Coins already certified by NGC can be submitted for inclusion in an NGC Multi-Coin Holder for $5 per coin. The fee for raw coins is based on our standard grading fees per coin, and there is no additional charge for encapsulation in the NGC Multi-Coin Holder.

Copper Type Heats Up $20 Saint-Gaudens Push Higher

Strong activity defined the dealings in this week's market. This heightened interest is somewhat expected because it comes at a time when most dealers have completed their vacations and are ready to get down to business. To be sure the autumn season is usually an active one (auctions and shows) in the rare coin market and this Fall is no exception. Dealers will have to be well rested (and well-healed financially) to compete successfully as they will have a rigorous week ahead. Leading off the cavalcade will be American Numismatic Rarities, with their C.L. Lee sale in Los Angeles, September 18th followed by both the Superior's and the Goldberg's Pre-Long Beach extravaganzas on September 19th in Beverly Hills. Topped off by Heritages Signature sale running concurrent with the Long Beach Expo September 21-24. At the conclusion of which most dealers will have to strategize for the remainder of the year. It is necessary for them to review and revamp their inventory and look to dump out any of the coins that are just taking up space. They don't mind keeping those that appear to be gaining in favor with collectors but they need for their material to turn over in a reasonable amount of time. So they look to review those areas of the market that are making some noise and those areas that aren't. Some discounting is still evident in a number of series. However this is just the selective process of weeding out a few of the bad apples. Generic Morgan Dollars, some Silver Commems, late dated Walkers, Proof Singles and some Type are likely candidates to be jettisoned. These are the coins that can be rather easily replaced and in short order. Buying the coins that collectors want and desire is certainly a matter of timing, yet it is an important and necessary decision to be made. Of course there is some degree of risk attached to this strategy. Coins that are in favor are usually higher priced so it is generally more difficult to sell these coins for top dollar. Also, if this area of numismatics suddenly goes out of favor, you may end up taking a loss or have to inventory the coins indefinitely.

This week, sight-unseen Bidders are looking to grab some Silver Commemoratives as many of them are sporting plus signs. Most advancing issues are doing so by at least 8 percent, a strong gain in just a week. Moreover, there are several that are appreciating at an alarmingly high rate of approximately 15 percent or more. The 1920 Pilgrim is the more common issue when you compare it to the 1921 example. However, it is the 1920 Pilgrim that soared some 41 percent in Gem as one dealer, who already has had his Bid hit once, is still looking for an additional nine PCGS pieces. Dealers might want to check their inventories as the latest PCGS population statistics show a plentiful 715 graded at the MS65 level. The majority of the increases among Silver Commems are seeking PCGS coins grading MS65 and MS66. Many of those increasing are still rather affordable selling for $500 or less even though they are high quality. In MS65 the Isabella Quarter and the Hawaiian Half Dollar are the two exceptions as the Quarter is $2,400 Bid and the Hawaiian Half at $4,800. Mint State Type is another area demonstrating strength in the sight-unseen market. Copper Type is believed to be undervalued and this week increased Bids are found among Half Cents and Large Cents. Bidders are looking for all color combinations including Brown, Red and Brown and Red, mostly in MS64 and better. Early Copper coins have an intensely passionate following with collectors so dealers don't anticipate any problems placing these sought-after rarities. Draped Bust Dollars are in demand as well with increases seen for select lower Mint State grades. We know that Draped Bust Dollars have moved to more realistic levels in the sight-seen market considering their rarity and so it isn't surprising to see some sight-unseen increases. Strong demand is responsible for increases among several five-figure $20 Saint-Gaudens rarities. Many of the later dates of this popular series didn't circulate and just sat in bank vaults. A Presidential order on March 6, 1933, prevented Banks from paying out Gold and consequently vast quantities of these Saints hit the melting pot reducing their numbers drastically. Their scarcity is well known today and of course their quality is a given as nearly all that survived are in Mint State. As the Saints continue their impressive march we have included the top ten performers in MS62 over the last year.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

But we're also highly interested in the real world, and that includes the 67 assorted silver dollars you've had for years, along with the Mercury dime set missing five dates, the 20 1964 Proof sets and the Trade dollar an ancestor brought back from the Orient. We're interested in hoards, accumulations, portfolios, specialty collections, and every other conceivable coin holding that you can think of.

We buy it NOW— Most transactions with **Spectrum Numismatics** are completed in less than 72 hours (start to finish) and many take place on the same day. If we need to come see you there's a major airport only minutes from our office. If we do the deal by mail, as we do in 80% of the cases, your coins will receive same-day attention upon their arrival. If you make an appointment and come by our offices you'll find our service prompt and our people as agreeable as our prices.

Check us out— Need references? You've got it! Just give us a call and we'll provide you with any information that you might need or want to assure you that **Spectrum Numismatics** is the right choice every time!

When it's time to sell...

JMRC will pay you more money for your coins.

John Maben
President & Chief Numismatist
John Maben Rare Coins, Inc.

Grading expertise equals a higher price when selling. The most confident and qualified graders can afford to pay you the highest prices for your coins.

Larger advertising budgets do not translate into higher prices for your coins, and may in fact be a drawback as somebody needs to pay those bills, and that somebody could be you! Some can legitimately claim more experience than their competition, but bear in mind, the length of experience means nothing compared to the depth, quality, and relevance of the experience itself.

So while there are many coin companies you could go to, many with fine numismatists, there are few who can offer you the consistent high level of grading expertise of a former NGC Grading Finalizer, like John Maben.

Where does this grading expertise come from? From grading and finalizing millions of coins of all types, conditions, and rarities. And not just a "look and go" grade, but at a level of focus and expertise that helped maintain an industry standard for virtually all marketable US coins, for nearly a decade.

CERTIFIED COIN DEALER newsletter

CCDN — a weekly report on the **Sight-Unseen** certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XX No. 38 September 23, 2005 Single copy price $4.00

Pair Of Pre-Expo Sales Yield $10 Million
Gold Fever Returns As Sight-Unseen Market Improves

Autumn has begun and with it the usual increase in the auction and show agenda. Dealers are once again following the rights of fall as the rigors of a virtual non stop schedule commences. Undoubtedly dealers will have a lot on their plate and only a short time to digest it all. They will likely face keen competition as most will be vying for similar material. This was certainly evident at the pre Long Beach sales that are already in the books. Once again quality rare coins have sold for strong levels. Many rarities are featured at public auction and in a bull market record prices become more commonplace. Dealers now find themselves in the unenviable position of having to compete with not only their peers but with aggressive collectors. Coins that haven't hit the auction block for many months are what they have their sights on. These are the prized numismatic items that adorn many a want list and are being hotly pursued today.

The Long Beach Expo was fairly busy on dealer set-up day but it wasn't as active as some might have expected (for the first day). Maybe it was because the buzz on the floor wasn't as pronounced as it was for the high expectations. Yes, expectations were soaring. The reason, Gold! Everyone was talking about Gold (and to a lesser degree Silver), and its recent push into the mid $460 per ounce level. We noticed that the after markets for the yellow metal were being intensely followed as well. Increasing Gold Spot prices means that a lot of increases will be occurring for Mint State Gold Type and other related Gold coins. So not surprisingly the biggest noise in the sight-unseen market was heard among Mint State Gold. Many denominations are participating as the intrinsic value is buoyed just by Spot taking off. Demand is also beginning to swell as orders for multiples of select denominations are out there waiting to be filled. These increases are important because they have a way of feeding upon themselves while pushing other areas of the market higher. It also brings more public to the show and puts them in a better buying frame of mind. Dealers were conducting business all right, with many completing transactions from their hotel rooms prior to set-up day. On the bourse, they were still looking to buy anything that seemed interesting. Early Bust and Liberty Seated material of all metals are facing strong demand.

Meanwhile, other areas of the sight-unseen market are displaying a lot of spark. Several series are enjoying prosperity this week as buyers look to acquire some relatively common date coins in time for the fast approaching holiday season. Morgan Dollars, which have been rather lackluster performers in the past few weeks, have found some new interest. Not surprisingly small gains are occurring for several common DMPLs. The minor increases are just a reminder that these DMPL dates are all scarce and in serious demand. We also see some semi-keys advancing as most of the plus signs are chasing after affordable collector coins. However, some areas are reflecting continued discounting, yet as PCGS just announced that it is now grading, authenticating and attributing more than 325 popular VAM varieties of Morgan and Peace Dollars this may be the added kick start that the Dollar market needs.

Speaking of Peace Dollars, this popular short and highly collectable series is attracting buyers for common dates and a few scarcer issues as well. As the general markets mind set remains favorable, dealers don't mind buying these bread and butter coins because of their popularity and affordability to most collectors. Orders continue to appear for Silver Commems as many are needed in MS65 and MS66. Some late date Full Band Mercury Dimes in Gem or better are also observed increasing a bit this week.

The Superior Pre-Long Beach Elite Coin Auction realized $4.26 million on September 19-20 in Beverly Hills. The Pre-Long Beach Sale conducted by Ira & Larry Goldberg claimed another $5.78 million in Beverly Hills on September 20-21. We listed a few of the many highlights from each sale.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" - Lowest asking price during the *w*eek prior to publication (*w*eek old); "**m**" - Lowest asking price during the previous three weeks (*m*onth old); "**t**" - *T*rade during the most recent month; "**lm**" - Lowest asking price appearing *l*ast *m*onth; "**lt**" *T*rade appearing *l*ast month; "**ot**" *T*rade older than 2 months; " " a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder
In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

The NGC Multi-Coin Holder

Just one of the ways our rare commitment is redefining the hobby.

The NGC Multi-Coin Holder is the premier presentation option for sets of certified coins. Any imaginable combination from two to five coins can be encapsulated within one holder, and six-coin holders are also available for Proof and Mint Sets.

Made from the same state-of-the-art plastics as the NGC's single-coin holders, the NGC Multi-Coin Holders are sonically sealed, tamper-evident, and include a security hologram. Each coin is given its own certification number, making coins eligible for individual inclusion in the NGC Registry.

Coins already certified by NGC can be submitted for inclusion in an NGC Multi-Coin Holder for $5 per coin. The fee for raw coins is based on our standard grading fees per coin, and there is no additional charge for encapsulation in the NGC Multi-Coin Holder.

Market Entertains Golden Future Opportunities Seen In Auction Results

The Long Beach Expo and events associated with that major show dominated late September's numismatic landscape with robust activity. This was especially so for the handful of public auctions accompanied by it. Intense competition was forcing some prices for nice material to record levels, often, much higher than dealers were willing to pay. For them, buying coins on the bourse found a similar problem with Asking prices seeming to be unrealistically high. Adding insult for some was the fact that many of the coins on the bourse had been repeatedly seen at other shows leaving many to explore other sources to fill their void. This week Silver Commemoratives are a hot ticket as the growing audience of sight-unseen Bids will attest. Just take a look at the swarm of increases with dozens of them higher by more than 5 percent. The good news is that these big gainers are for coins that sell, for the most part, below $500 which still puts them within reach of most quality conscious collector's budgets. Gold Commems are also sporting sight-unseen gains this week as nearly the entire series is increasing in MS64 and better. It's becoming pretty obvious that demand for coins is certainly strong as we close out September.

Some dealers have voiced the opinion that Proof Type may be an undervalued area. Collectors that can afford to spend $3,000-$5,000 might take a look at some elite Proof Type grading 65 or better. Many have done very will within this area of the market and dealers have said that their customers are looking to add eye appealing examples to their holdings. Although this week's Proof Type market may indicate some minus signs, material in higher grade seems to be in more demand and is gaining strength. Talking about strength! Gold Type and Proof Gold Type are two areas that are definitely the beneficiary of bullion's climb. We note that most Gold Proof Type is revealing gains. At first glance these may be small percentage moves but considering that many of these coins are nearly six figures or more, even small moves percentage wise add up fast. Serious collectors are actively buying numismatic Gold, including Early and rare date Liberty examples as well. There appears to be a powerful force dictating the market's direction, one that is likely to carry it through to the holidays.

Last week the price of Gold motivated many dealer's and collector's thinking process concerning rare coins. The sharp increase in the precious metals was amplified throughout the financial news arena with a vengeance. Talk of a weaker U.S. Dollar and the prospects for future inflation, exacerbated by oil's rise was enough to rattle some investors now looking for alternatives. This week after some early profit taking, Spot Gold bounced back to test the $470 plateau. If Gold holds that level or goes higher it may just make even more believers. This widening group of buyers can prove to be a very significant one as they try to add some of the yellow metal to their portfolios. However a certain percentage of new Gold buyers will encounter rare coin dealers for their bullion needs. In turn, this may be their first introduction to the world of rare coins. In other words, higher bullion means that an increase in demand for rare coins is highly probable. In any event the bullish Gold and Silver prices have done wonders for the increased optimism now flourishing in today's rare coin market.

To be certain with an avalanche of lots to be viewed at the various auctions just concluded many coins other than the Marquee attractions continue to slip through the cracks. Many just didn't have the time to view them all. Keep in mind that a **huge amount** of auction lots hit the marketplace during one week's time and $35 million in auction receipts mean that a lot more than just new money is buying. Now considering that there were over 13,000 lots to be examined during this auction blitz, the fact that fewer than 2% were missed by dealers and other collectors proves again that some bargains exist for those willing to do their homework. Listed herein are a baker's dozen of coins that may have been some consignor's loss but were some bargain hunter's delight.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported High Bid and by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Dealers Desperately Need Coins
Higher Bids Hope To Flush Out Material

Even as the rare coin market motors on we hear dealers continuing to complain that their inventories are virtually running on empty. The immediate need to buy coins is obvious; dealers have to replenish their seriously depleted holdings in order to fulfill the ever growing customer want lists. Capital is not the problem as many have sufficient funds available to purchase any fresh deals that are offered. Just finding anything new is the challenge. Consequently, many dealers are making appearances at just about any coin show they can find right now, scouring the various bourse floors. They know that the prices paid for the tough and interesting items they locate will continue to escalate until the available supply of that material increases. Many dealers are on the hunt right now in Atlanta as the Whitman Expo being held October 6th-8th is underway. American Numismatic Rarities have teamed up with Stack's in offering a public auction October 6 in conjunction with this event. Fierce Bidding will be expected as savvy collectors compete side by side with veteran dealers for those special lots. Not surprisingly we have noticed that this outstanding demand is turning into plus signs seen throughout our Bid columns this week.

Higher sight-unseen Bids have been placed by multiple dealers for needed material in several areas of the market. Some of those areas are experiencing a continuation of the similar demand we've been seeing over the past few weeks, but for others it is a bit more surprising. We know that most buyers would prefer select PCGS or NGC coins. This is the case because they have been in business many years while utilizing expertise that consistently produces a product that is satisfactory to buyers. This has allowed them to capture the lion's share of the professional authenticating and grading business. However many of these slabs have already disappeared or have become overvalued. So, prudent dealers have found hidden value in coins graded by ANACS, ICG and other services. Increases, sight-unseen, for these coins are quickly becoming apparent, but it is the widening group of dealers Bidding for these third party slabs that's compelling. Obviously there are many interesting coins out there and these hidden treasures are being quietly taken off the market from wherever they can find them.

As we alluded to last week, the financial markets have been demonstrating a considerable amount of interest and activity for Gold. The notion that $500 (or more) per ounce Gold in the near future is probably going to be a reality has made many new believers. Many of these are sophisticated collectors have done their homework and have money to spend. Armed with population report statistics and past price performance information they are looking to buy those coins that offer a double play, those which have the best chance of doing well numismatically as well as intrinsically when even higher Gold prices are upon us. This demand appears to be growing this week as fears of future inflation remain an important consideration. Appropriately enough the sight-unseen rare coin market has responded with another round of strong, higher Bids for the majority of Mint State Type Gold. Leading the impressive parade of plus signs we find the ever popular yet very thinly supplied $3 Princess.

Gem quality and better Mint State and Proof Type continue to generate heated activity and may be approaching the boiling point as all Bust, Liberty Seated and Barber coinage is hot. Half Cents, Large Cents and many other Silver denominations are glittering with quality examples being pursued.

Perhaps driven by somewhat higher Silver bullion prices a swarm of minor advances are again landing on many Silver Commems. Morgan Dollars are a bit of a surprise as they have come alive this autumn. No doubt some calculating buyers entered this popular area trying to capitalize on recent weakness. Checking in with over a 130 higher sight-unseen Bids registered for this series we note that over 90% are for NGC material, reflecting gains up to 29% for selected examples. Peace Dollars are also participating by finding some new buyers. As always there is some minor discounting to be found as dealers look to disperse some positions in order to obtain another.

Following the Atlanta Expo, dealers will head towards Saint Louis, Missouri for the Silver Dollar and Rare Coin Expo to be held October 20-22. Scotsman will conduct a 1600 lot auction October 20-21 in association with the Expo. We have included some of the many highlights.

Coin Presentation *Redefined*

Just one of the ways our rare commitment is redefining the hobby.

The NGC Multi-Coin Holder

The NGC Multi-Coin Holder is the premier presentation option for sets of certified coins. Any imaginable combination from two to five coins can be encapsulated within one holder, and six-coin holders are also available for Proof and Mint Sets.

Made from the same state-of-the-art plastics as the NGC's single-coin holders, the NGC Multi-Coin Holders are sonically sealed, tamper-evident, and include a security hologram. Each coin is given its own certification number, making coins eligible for individual inclusion in the NGC Registry.

Coins already certified by NGC can be submitted for inclusion in an NGC Multi-Coin Holder for $5 per coin. The fee for raw coins is based on our standard grading fees per coin, and there is no additional charge for encapsulation in the NGC Multi-Coin Holder.

Autumn Activity On The Rise
Lack Of Coins Equals Higher Bids

October is already half over and the battle cry for coins is continuing. This time the pleas were heard loud and clear from many in the Deep South at the recently completed Whitman Expo in Atlanta, Oct 6-8. Reports from this front indicated that the wholesale business for those looking to sell was booming, yet those attempting to buy at wholesale levels were finding it next to impossible. Overall the Expo was a good show for retail sales with strong bourse action reported by Saturday. Initially dealers were concerned by the heavier than usual competition they have been facing at public auctions. This is partly due to the relatively easy access that many collectors now have to these on going sales via the internet. Now, though not in a total panic mode, many need to replenish their businesses lifeblood by replacing depleted inventory.

It is exacerbating for major players having to repeatedly come home from shows large and small virtually empty handed when they have sufficient funds to acquire coins that they need to buy. Several dealers will now look to aggressively Bid for coins beginning October 20-22 at the Silver Dollar Expo in Saint Louis. Followed up with a visit to sin city for the new ANA Las Vegas Coin, Stamp and Collectibles Show. This being held October 27-30 where Bowers and Merena will conduct a public sale at the Mandalay Bay in conjunction with the show.

By all indications, it was soon after the summer ANA that this current bull market developed its ongoing momentum. With this increased demand, we find that the sheer lack of material has forced another round of higher sight-unseen Bids, this on the heels of last week's impressive display. However this week's gains are covering a much broader spectrum of the market than they did last week. This visibly widening scope of demand is certainly indicative of a prime bull market.

Type, both Mint State and Proof, is very powerful with plus signs dominating all the Silver denominations in Mint State grades from 61-67. Gold continues to sparkle and we note some significant movement here as the rare (1829-1834) Small Capped Head Quarter Eagle is flying higher by some 32% for MS65 PCGS specimens. Considering only 12 have been graded as such by PCGS and but 5 attaining a higher designation, netting one will be quite the task. We also observe a 12% advance for the equally tough (1813-1829) Large Capped Head Half Eagle in PCGS MS65. Morgan Dollars appear to be rejuvenated after their apparent bout with the summer doldrums by following last week's strong showing with an even greater display of increases this time around. Bidders (mostly looking for NGC examples) are hoping to capitalize by buying coins that represent an excellent value. Common dates, slightly better dates, semi-keys, DMPLs, Carson City issues and a few key dates turned in some impressive gains. Two Philadelphia issues that are enjoying double digit increases include an NGC MS63 1879 and a PCGS MS61 1892 with jumps of 14.7 percent and 13.3 percent respectively. Look at the semi-key 1894S as MS64PL specimens report in with a 14.7% gain for PCGS examples. Good luck finding one as PCGS has only graded 26 at this level and but 2 higher. Savvy collectors may want to take note as strong collector demand for Morgan Dollars has been one of the key indicators of a bull market and this significant display only reinforces the ongoing bullish sentiments.

Still, Morgans aren't the only series doing well this week. Check out some of the other "collector" series. Buffalo Nickels, Mercury Dimes and Walking Liberty Half Dollars are all chiming in with surprising interest. We see that PCGS MS65 and better is the grade of choice for Bidders among Buffalo Nickels. Strong Bidding for common dates in the 1920s and 1930s is found in abundance along with a sprinkling of some teens and some slightly better dates. A PCGS MS65 1927 Nickel at $210 Bid represents a better than 10 percent gain from last week. Mercury Dimes found a similar situation with nearly all of plus signs next to PCGS examples with grades needed ranging from MS65FB and better. Again, common dates (mainly in the 1930s and 1940s) are being targeted. It is an amazing display with many issues gaining significantly over last week with more than four dozen displaying increases of five percent or better. Walking Liberty Half Dollars are also attracting renewed attention, as multiple dealers raise their sight-unseen Bids for both PCGS and NGC product.

The October 6 Atlanta Sale hosted by Stack's and American Numismatic Rarities realized $1.5 million. We have listed only a few of the many rare coin highlights.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels. *www.cdnpublications.com*

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

UNPRECEDENTED SEVEN-TIME NUMISMATIC LITERARY GUILD AWARD WINNER

Traditionally, learning a lesson in the rare coin market has been very expensive. You would buy a coin for $500, find out later that it was worth only $50, and, thus, you would have to pay $450 to learn just one lesson. But now, thanks to the revised fourth edition of *The Coin Collector's Survival Manual®*, by Scott A. Travers, you no longer have to pay a fortune to learn about how to buy and sell coins profitably.

This thoroughly revised edition examines the coin field from an insider's perspective and continues to break new ground in revealing the ins and outs of coin collecting and investing. Excellent photographs and detailed charts amplify the encyclopedic, clearly written, meticulously organized text. You'll learn about the following:

- How to look at coins the way the professionals do
- **How to determine what a coin is worth and what grade the leading certification services would assign to it**
- How to spot slight friction on otherwise "Gem" coins
- How to tell the difference between proof and prooflike
- **How lighting affects appearance—and the latest in halogen flashlights**
- Altered and counterfeit detection techniques
- How to judge price guide accuracy
- Selecting and testing a coin dealer
- **How not to get ripped off if you buy coins through the mail or over the Internet — courageous information**
- Profitable - and not-so-profitable - liquidation techniques
- **How to buy and sell at conventions like the pros do**
- How to spot a cleaned and artificially toned coin
- **A comparison of PCGS versus NGC — which service does the market really favor?**
- Stunning exposé and bombshell interview on coin "doctoring"
- **Special full-color section on artificially toned and doctored coins**

SPECIAL SECTIONS ON:

- **Doctored coins, how to detect them, and the case of the doctored hoard of gold rarities that got slabbed**
- The real truth about slab services "fixed grading standard" claims and premium quality coins
- Revelations from a leading coin trader
- **A grading service founder's startling admission of modified grading standards**
- The newest tax laws

CONTAINS ALL-NEW INFORMATION ON:

- **Gold coins as an economic safe haven**
- Coin conservation services
- **Coin insurance and safekeeping in light of September 11, 2001**
- The latest Internet strategies
- **Digital photography pointers**

and much, much more!

$6.5 Mil For Massachusetts Colonial Silver Coinage Morgan Dollars Find More Buyers At Current Levels

Optimism is still running high as the autumn market continues its torrid pace. Most dealers harbor high expectations about its continued run with the end nowhere on the horizon. In light of the continued high prices realized at public auctions for select rare coins, we can appreciate their enthusiasm. Yet the negative side to this equation is that many of these attractive and interesting rarities are being purchased by serious well-healed collectors. This is encouraging for the market but is also discouraging to dealers that are being out Bid at virtually every turn. They also face a similar scenario taking place on the show circuit where the bourse has been all but bone dry for fresh material. Many savvy dealers are aware that today's current demand is a by-product of several powerful forces already in place. For instance, the registry phenomenon is still providing solid support for those coins that are among the finest known for the date or variety. This friendly competition has served to fuel prices in select areas to heights that were unheard of not too long ago. Now add to the mix those special areas of interest, such as the $6.56 Million realized at Part XII of the John J. Ford Jr, Collection of Silver Colonial Coinage of Massachusetts and you will see why things continue to escalate. To be sure this is a more esoteric portion of the rare coin market. Yet the extreme rarity and prices realized by these historic American coins does say volumes about the financial ability and desires of today's collectors.

Dealers are well aware that many of these baby boomer generation collectors are not only avid buyers, but in some respects they're not as discriminating about their acquisitions as much as an investment but just something to collect. For many a purchase may be the fulfillment of their youth, acquiring something that they couldn't have possibly afforded then. Now many of them can! True, many baby boomers were first drawn to coins as an investment medium, but for a larger segment they are happy to be collectors. Regardless of their make up, as one dealer put it, today's collector base is "enormous."

The sight-unseen market is also reflecting today's strong demand. However it's not the usual activity that one might expect to find just before a major show like the upcoming ANA Las Vegas Coin Show, October 27-29. Typically, we might expect to see some minus signs or discounting taking place for Type, late date Walking Liberty Half Dollars or Proof Singles. As these are the primary segments of the market that are sold when cash is needed. This time we don't see a rash of selling coins at a discount to raise funds. This is due in part because dealers haven't been able to spend all the money that they've allocated at previous shows and auctions for purchases. Consequently they are in a strong cash position. This is both good and bad. It's great to be in a strong cash position yet dealers know that they must maintain an attractive fresh inventory to keep sales brisk. Hoping to rectify the situation, many won't be adverse to stepping up the action to acquire some coins when they arrive at the Mandalay Bay Casino in Las Vegas.

Overall the sight-unseen market remains strong with some minor declines found mostly among Silver Commems. However, these are nearly offset by higher Bids for the Albany, Iowa and Hawaiian issues. Look at the popular Civil war themed Gettysburg, battling its way to the top with nearly a 10 percent gain for a PCGS MS65, now Bid $500. Morgan Dollars are also active displaying some modest discounting, but even that's been eclipsed by an even greater number of gains this week. The majority of the issues advancing are above $100. So you can see that it isn't only the common dates in demand. This time, an 1891-CC is tops as NGC MS64 examples are up nearly 10 percent at $1,010 Bid. We see that several potentially undervalued coins are increasing as well. Check out the movement on 1921 and 1923-S Standing Liberty Quarters!

Stack's conducted their 70th Anniversary Sale in New York October 18-19. It realized more than $13.24 million with the majority of the coins going to collectors. We listed a few of the many highlights.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels. *www.cdnpublications.com*

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

You probably *haven't* seen our work.

All you'll see is a beautiful coin.

A common first reaction to a professionally conserved coin is wonderment. Conservation reduces the ill effects of improper storage or exposure to environmental contaminants — substantially improving a coin's visual appeal.

Most conservation projects involve only the removal of surface impurities, enhancing the vibrancy of the coin's original patina.

Specific conservation focuses attention on a small area of a coin's surface to remove a spot or debris. This eliminates a visual distraction and removes the impurity that may cause further deterioration.

By returning a coin's surface to its original state, its natural beauty shines through. The professional conservation goes unnoticed, and the result is a beautiful coin.

CERTIFIED COIN DEALER newsletter

CCDN — a weekly report on the **Sight-Unseen** certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XX No. 43 October 28, 2005 Single copy price $4.00

Proof Gold & Gold Commems Enjoy Increases
Undervalued Opportunities Sought-After

October is ending and dealers, with only two months remaining in 2005, still find themselves in a precarious position. Many are still uneasy about the number of rare coins that they **haven't** been able to secure, either at shows or auctions. Furthermore, they are acutely aware that the holiday season is just around the corner and they don't want to find themselves short on quality offerings for their clients. Of course it's great that the rare coin market is doing so well but without the coins to sell the prospect for holiday cheer will be limited. Still most dealers concede that this has been a relatively good year despite the high price of gas at the pump and increasing interest rates. Yes, there are parts of the country that have suffered extreme hardship from weather related catastrophes but despite all the negatives many analysts are expecting holiday shoppers to surpass last year's spending budget. This is especially true when it comes to many avid rare coin buyers' resources. Dealers know that if they don't have the fresh varied inventory that consumers are clamoring for it's going to be a tough ending to an otherwise prosperous year. They don't want to disappoint their customers, or even worse have them go elsewhere to spend their money! With this in mind dealers are utilizing all the avenues at their disposal in an effort to buy some more coins before it's too late.

The St. Louis Expo offered some help but the going was tough as the Asking prices for many coins were pretty high. Wholesale business was active enough but unless you were able to pay top dollar, chances are that you probably came home empty handed. Similar strength is expected at the ANA Las Vegas show and auction currently in progress at the Mandalay Bay resort and casino. Dealers are looking ahead to the several major shows and auctions to help fill their holiday want lists just in time. One such opportunity is the Palm Beach Coin Show scheduled for November 2-5 in Florida featuring Heritage's Signature Sale showcasing the impressive Phillip H. Morse Collection of Saint Gaudens coinage. Yet perceived holiday cheer may be premature even here in light of Mother Nature's recent rampage through that region. So those planning to attend may want to check to be certain that hotel and flight reservations are still being honored.

Another viable option for those not willing to wait is the sight-unseen market. Here a quick turn is possible. We are finding that some dealers are willing to boldly Bid, sight-unseen, for coins that they believe are a safe choice for the money. Last week's sight-unseen market found the Morgan Dollars vying for top honors. The strength in the Dollar market was confirmed by the activity taking place on the bourse in St. Louis. However while Dollar buyers are still evident it is not to the same degree that we saw last week. Instead, we are seeing specific dates being targeted with many supporting Bids also found throughout the series. A pair of semi-keys are scoring points in the attractive collector grades of MS63 and MS64. The 1892 Philadelphia and the 1901-S are no stranger to want lists and these are the two affordable grades that make sense to most collectors. The combined population numbers from PCGS and NGC of the 1892 is somewhat surprising. You might think that either the 1892-O or 1892-CC is tougher to find, but you would be wrong. These two services have slabbed more of both branch Mints in MS63 and MS64 than the 1892. When it comes to the 1901-S, this better date makes perfect sense as a representative for that year. This is because the 1901-O is simply common while the 1901 is a key that's beyond many a collectors' budget. Dealers are always on the prowl to find good value for their customers. That's why the deluge of plus signs for **Proof Gold** this week is a smart choice. Gem quality Proof Gold is not only rare and exquisitely beautiful but it also tends to hold its value, even when numismatic times are tough. The increases are modest, when considering percentage gain, but that's what you would expect to find from these five-figure rarities. Four-figure Gold Commems are also moving higher this week. Quality and rarity are favorite targets for those buyers in this price range. We see that Quarters are dominating the activity in MS61 thru MS64 as Draped Bust, Capped Bust and Liberty Seated are all participating. Undervalued issues, by their very nature, usually attract heavy demand. These are the coins that dealers enjoy buying for their best customers. We know that the 1946 and 1947 Philadelphia Mint Walkers often become lumped into common status in this popular series. They are not! That's why this week's sharp increases for both aren't that surprising to knowledgeable dealers. Indeed, we see that at least two Bidders are in place for each date in MS65 and MS66. For example, an NGC MS65 1947 jumped 86 percent while a PCGS MS65 1946 leaped nearly 58 percent.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, [illegible] and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication we track the lowest sales-related prices in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" – Lowest asking price during the *w*eek prior to publication (week old); "**m**" – Lowest asking price during the previous three weeks (*m*onth old); "**t**" – *T*rade during the most recent month; "**lm**" – Lowest asking price appearing *l*ast *m*onth; "**lt**" *T*rade appearing *l*ast month; "**ot**" *T*rade older than 2 months; " " a blank, for all Market prices older than two months; "**a**" for auction transactions, "**oa**" – auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder
In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis

Fast Pace Market Kicks Off November Dealers Look for Value In ANACS Slabs

The month of November has certainly gotten off to a roaring start with the record breaking sale of the fabulous King of Siam Proof set for $8.5 million. National headlines and media attention surrounding this transaction certainly enhanced what is already considered a flourishing bull market. Of course the coins within this set are extremely rare and can only be purchased by the very affluent yet it's this type of ego building publicity that will most certainly maintain the positive mood and that says volumes about the strength for this market as we wind down 2005.

Right now many dealers are still under the gun playing a virtual game of beat the clock just attempting to buy some quality coins. The just concluded ANA Las Vegas show, according to most sources was lively. Not only did the Bowers and Merena auction realize a healthy $6 million but the 2-day Teletrade sale realized over $1.2 million. This is a record for this 19 year old internet and phone auction company. Some of the many highlights from the over 3,600 lots offered by them included an 1898 and 1900 NGC PR68 Cameo Morgan Dollars from the Excalibur collection each claiming $21,856. A 1908-S Barber Half graded PCGS MS67 from the Price collection was hammered at $14,560 and a NGC MS61 1860-C Quarter Eagle fetched $18,480.

Due to Mother Nature's wrath the Palm Beach show has been canceled. This necessitating Heritage to relocate their auction scheduled to coincide with this event to their Dallas home office. One session of this sale slated for November 3-5 includes the Phillip Morse collection, a sensational offering of $20 Saint-Gaudens that may define price levels for this popular series. As we go to press we note that Bidding has been spirited and has already exceeded $2.8 million for the 1907 Ultra High Relief in PCGS PR69 and the rare 1927D in PCGS MS67 has already topped $1.8 million. NGC has also made the trip, offering on-sight grading, something not normally available at a dealer's office.

So in light of the activity going on deep in the heart of Texas it is understandable that the sight-unseen market is receiving only light action for PCGS and NGC material. Still, it is important to keep in mind that bull markets, essentially, are not always about how many plus signs are appearing on the sheets each week. The lack of a large number of plus signs don't necessarily mean a lack of strength. We know that many areas of the sight-unseen market are still crowded with supporting Bids. These are coming from dealers that continue to search all avenues for coins while maintaining a presence on the electronic dealer trading networks. Obviously the customer demand hasn't waned to the degree where a change in market direction is upon us. Instead we see a number of interested buyers trying to capture some examples to satisfy their customer needs. It is also important to have an amply supply on hand for stock as well. As we observed last week, dealers are always on the look out for undervalued coins. Many of them are hoping to buy a few at their current sight-unseen Bid levels. The less that they have to pay for a select coin means that their customer is able to buy in at a more attractive level as well. Keeping your customers happy means that you will be able to sell another coin on another day. Apparently a few prudent dealers are trying to capitalize by exploring the opportunities that may exist from coins in ANACS, ICG and other holders. This week a large number of higher sight-unseen Bids have been placed for ANACS graded coins, and to a lesser extent ICG. This, at least for ANACS, may be in reaction to their recent ownership and personnel changes along with the perceived future direction of the company. It remains to be seen what these changes will mean in regards to the volatility of their product but in the meantime a few buyers are trying to stay ahead of the curve by buying early.

As a result Gold Type, Proof Type, Morgan Dollars, Peace Dollars, Silver Commemoratives, Mercury Dimes, Proof Gold, Walking Liberty Half Dollars and Proof Singles are all enjoying select scintillating Bids this week. Some of these Bids represent strong percentage increases since the last known highest sight-unseen Bid. Led by a 95% gain for a Large Sized Capped Bust Quarter in ANACS MS65, another two dozen examples follow reflecting gains of 20% or more. These are important developments in the sight-unseen market and those not doing their home work are destined to perhaps leave some money on the table. For others it might mean an early Christmas present. For dealers looking ahead, the Santa Clara Expo is on tap for November 17-20 in Northern California where Superior Galleries will conduct an auction in conjunction with the show.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Coin Presentation

Redefined

The NGC Multi-Coin Holder

Just one of the ways our rare commitment is redefining the hobby.

The NGC Multi-Coin Holder is the premier presentation option for sets of certified coins. Any imaginable combination from two to five coins can be encapsulated within one holder, and six-coin holders are also available for Proof and Mint Sets.

Made from the same state-of-the-art plastics as the NGC's single-coin holders, the NGC Multi-Coin Holders are sonically sealed, tamper-evident, and include a security hologram. Each coin is given its own certification number, making coins eligible for individual inclusion in the NGC Registry.

Coins already certified by NGC can be submitted for inclusion in an NGC Multi-Coin Holder for $5 per coin. The fee for raw coins is based on our standard grading fees per coin, and there is no additional charge for encapsulation in the NGC Multi-Coin Holder.

Dealers Eye Holiday Needs Bids Jump For Small Eagle $10 Gold

Light activity on the trading networks was kind of expected last week as many high profile dealers were totally consumed with the major Heritage auction taking place in Texas, November 2-5. After the results were in it could be said that mother nature's intervention which necessitated the change of venue from the original Palm Beach, Florida site, caused just about as much of a whirlwind and destruction to their pocket books here. When the smoke cleared this phenomenal sale lassoed an astonishing $42.8 million! One session featured the fantastic Phillip H. Morse collection of Saint-Gaudens coinage as part of the Platinum Night extravaganza. Exuberant Bidding was seen for many of the finest known major rarities from the $20 Saint-Gaudens series. It was an event that proved to be a memorable experience for all those in attendance. The chance to be a successful Bidder on some of the finest known rarities doesn't come along every day. However in some cases, Bidders had the pleasure of choosing from among several of the finest known examples of each date. Many serious rare coin collectors were willing, with the assistance of their personal expert dealers, to buy many of these rarities at new record prices. Even more astounding was that the average hammer price of the 213 lots in the Morse collection was over $90,000.

The strength of the prices paid for these coins left under Bidders in awe and wondering just how high they would have had to go to be successful. If there was ever any doubt as to the power and continuation of today's bull rare coin market, those concerns have completely evaporated by the sale's conclusion. The future of the current bull market, at least to many of these happy collectors, must look very bright. One would expect that an auction of this magnitude would sop up a lot of the available funds. Not too many years ago this would have been true but now there is also a lot of new money entering the market. There never seems to be a shortage of funds for fresh, original rarities that also boast quality.

Dealers will have another chance to flex their Bidding muscles and acquire coins at the Santa Clara Coin, Stamp & Collectibles Expo November 17-20 in northern California. Here Superior Galleries will host a Nov 17-18 auction, a few of the marquee attractions include a 1797 Capped Bust Stars on obverse Quarter Eagle graded NGC MS64 a 1918/7 S Standing Liberty Quarter in PCGS MS66 and a 1797 $10 Capped Bust Large Eagle graded NGC MS62. For those on the eastern seaboard the semi-annual Bay State Coin Show is scheduled for November 18-20 in Boston. Many additional regional shows are on the slate and with the on going shortage of quality coins many of these otherwise lightly attended shows are being visited by some major players as they hope to recruit much needed inventory.

Some discounting, perhaps out of necessity took place in many areas of the sight-unseen market this week. Dealers who were successful but had to stretch to be a winner may have been forced to sell off some stale or languishing material in the process. Many of them know that selling coins sight-unseen is a quick way to push out some stock to raise cash or just to get rid of an example that has lost its welcome. We have seen many coins sell at auction, or surprisingly offered at prices below active sight-unseen Bids. We noticed several Mercury Dimes, Silver Commems, Franklin Half Dollars, Walking Liberty Half Dollars, Morgan Dollars and Peace Dollars selling below Bid. Those dealers that weren't able to buy some of those big coins could have done well playing the small game instead. However there was also a strong contingent of buyers in the sight-unseen market as well. Plus signs are the result as the bull market and holiday demand converge. As the prime holiday season nears some signs of desperation may be apparent. Increases are seen for the popular Morgan and Peace Dollar series. Common date Morgans in MS63 and MS64 moved a tick higher for each grade. A pleasing white example in either grade makes for a nice holiday gift. However those buying in the Peace Dollar series are more interested in scarcity where a wide swath of semi-key and key dates are seen advancing in grades from MS61 thru MS65. The scarce and desirable Spanish Trail Commem soared, gaining 12 percent for PCGS MS66 examples. Exceptional demand pushed Draped Bust, Small Eagle $10 Gold up to 39 percent higher in the "more affordable (below $100,000)" collector grades from MS60-62 for both PCGS and NGC. However with a combined 106 PCGS/NGC examples outstanding, snatching a few of them will still be quite a challenge indeed. Several nice percentage increases are seen in among better date, early Washington Quarters. The specific need category is also targeting the Mercury Dime series. For example, the 1930-S is being pursued in PCGS MS64FB thru MS66FB. Success should be in the cards as 289 are available and the 5-9 percent increase may entice some to sell. However, the modest 2 percent increase for a more difficult to find 1928-D in PCGS MS66FB may be another story. There are only 14 examples certified at this grade level and many of these are already secure in collections.

P L Dollars may be semi-reflective with less [illegible] than the deep-mirror DMPLs. Bids for PLs are usually much lower than for DMPLs, but [illegible] premium over non-PL strikes.

Precious Metals Breech Major Levels
Panama-Pacific $50 Slugs Face Strong Demand

The overall market remains robust and is extremely healthy as we approach the holidays. Most dealers are not only optimistic about the finish for 2005 but they believe that even better things lie ahead for 2006. Many prominent rare coin analysts seem to concur, having come to virtually the same conclusion sighting that this on going enthusiasm is being fueled by several factors. For example they have noted a resurgence of demand from the baby boomer generation. Many of these affluent professionals were collectors as children and that interest has been rekindled. Also, now that many are nearing retirement age they are relaxing and enjoying the activities that they worked long and hard to achieve. Another force may be found among the State Quarter program which has helped to propel younger collectors. This group is avidly filling the holes in their Quarter maps, which for many has been providing their initial entry into coin collecting. Now we are finding that this strong thirst has been spreading to additional areas of the market. Coincidentally, as these eager younger buyers look to quench this thirst many of their parents have also become hooked and have become motivated buyers. The financial markets also continue to be a significant driving force and are responsible for the spin-off to rare coins from the huge boost that's occurring in precious metals. Both Gold and Silver bullion have managed to shake off their recent bout of profit taking by surpassing major levels. Silver broke through the $8 per ounce barrier, not seen since last December. Gold, not to be out done vaulted past $485 per ounce, nearing an 18-year high. Of course many analysts still believe that $500 Gold will become a reality before 2006. Meanwhile we see that Platinum reached $992 per ounce before backing off a bit. The expectations from these gains point to increased sales of American Eagles if these levels are maintained or improved upon. Another result of the increases in the precious metals is the spill-over demand and interest for coins that trade according to their numismatic, rather than just their intrinsic value. Gold bullion buyers consider $20 Liberty and Saint-Gaudens issues to be a natural progression while Silver enthusiasts initially tend to seek Morgan and Peace Dollars. Once these areas are mastered, other coin denominations may gain a greater appeal and soon a new collector emerges. If the economy continues to prosper helped by a continued low inflation rate it should provide the right recipe for a continued bullish coin market in 2006.

Right now dealers are actively trying to capture some of their last minute coin needs before the official start of the December rush and holiday season (the day after Thanksgiving). Therefore they hope to be successful November 17-20 in California at the Santa Clara Expo or at the Bay State Show in Boston. They don't readily expect any bargains going in but they do hope to finally purchase some nice material at a fair price. However, for those doing their homework pleasant surprises exist as a NGC62 1914 $20 Saint slipped through the cracks at auction selling for $632, more than 35% below its **sight-unseen** $1,000 Bid! With so many dealers on the road this translates to a relatively quiet week for the sight-unseen market. Yet the strong demand for material is still with us though as we continue to see a host of supporting Bids being maintained at current levels.

Gold not unexpectedly, was the big winner this week in sight-unseen trading. Interest usually heightens when there's a rise in bullion. However it's the Gold rarities taking the honors and surprising some this week. We see that both, the Octagonal and Round $50 Panama-Pacific Gold Commems are vaulting in price. The sight-unseen Bidding for this dynamic duo is simply fantastic with Bid increases totaling more than the cost of a modest home in L.A. County for both in grades from MS62 thru MS67. In Gem MS66, PCGS and NGC each jumped an astounding 55 percent. That's an amazing return considering it was a six-figure coin starting out. Still PCGS and NGC show a combined 25 examples in MS66 and better. Many dealers view $50 Pan-Pacs, High Reliefs, 1895 Morgans and $4 Stellas as market indicators for a quick test of the market's health. All four passed the exam and are currently in strong demand. Next, take a look at Mint State Gold Type. Again, dealers are targeting the better Gold issues. **No Motto** Liberty Gold found increasing support from sight-unseen Bidders. Increases are seen for $5 and $10 Liberty, No Motto examples in grades from MS61 thru MS64 with strong offers also appearing in higher grades. Late date Walking Liberty Half Dollars are depicting a few plus signs as well. Franklin Halves continue to be an enigma as the series continues to send mixed signals. We note that many have supporting Bids yet week in and week out we continue to observe that many specimens are being regularly sold at auction and other weekly offerings bringing as much as 35% **below** sight-unseen Bids.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

When it's time to sell...

JMRC will pay you more money for your coins.

John Maben
President & Chief Numismatist
John Maben Rare Coins, Inc.

Grading expertise equals a higher price when selling. The most confident and qualified graders can afford to pay you the highest prices for your coins.

Larger advertising budgets do not translate into higher prices for your coins, and may in fact be a drawback as somebody needs to pay those bills, and that somebody could be you! Some can legitimately claim more experience than their competition, but bear in mind, the length of experience means nothing compared to the depth, quality, and relevance of the experience itself.

So while there are many coin companies you could go to, many with fine numismatists, there are few who can offer you the consistent high level of grading expertise of a former NGC Grading Finalizer, like John Maben.

Where does this grading expertise come from? From grading and finalizing millions of coins of all types, conditions, and rarities. And not just a "look and go" grade, but at a level of focus and expertise that helped maintain an industry standard for virtually all marketable US coins, for nearly a decade.

When selling, your goal should be to maximize the value of your coins. JMRC stands in a category of its own, uniquely and better qualified to accomplish this goal for our clients through a variety of means.

Find out how JMRC can help you realize higher prices for your coins. Whether you are a dealer, collector, investor, or estate officer, you deserve the very best advice available. Not second, third, or fourth best, but only the very best.

Call, email, fax, or write us today. Visit us on the web or in person by appointment at our Sarasota/Bradenton area Florida offices, or at any major convention.

Golden Glow Keeps Rare Coins Vibrant
Baltimore Show Up Next

This is a short week for dealers as they relax and enjoy the Thanksgiving Day festivities. However, after the holiday it will be back to business as they will still have to contend with the strong demand that remains in evidence for coins priced above $10,000. The publicity, sometimes on a national scale, helps to propel these rarities to levels even greater than the high end of some analysts' expectations. We know that record breaking numbers posted at public auctions only feeds the frenzy. Just locating fresh material still looms a most daunting task. The latest surge in the precious metals has also done wonders for the rare coin market. Gold thrives during turbulent times and the war on terrorism adds some degree of uncertainty to the equation. Also the value of the U.S. Dollar is under increasing pressure against other currencies, a condition ripe for Gold to strengthen.

Gold, at $494, appears poised to smash through nearly a two decade high as it now sits on the threshold of the magic $500 per ounce plateau. Analysts have predicted $500 Gold by the end of the year for months now and it appears to becoming a reality. Not to be out done, Silver is making strong waves of its own by cracking the $8 per ounce barrier on its way to $8.16. The bullishness of the precious metals just gives an added kick to rare coins. Savvy Dealers have long known that increased demand for bullion is an advantage for rare coins. Now the general public is seen awakening to the media spotlight hitting the metals. In turn, a percentage of them will look to add some Gold and/or Silver to their financial portfolios

As expected, Bidding in the sight-unseen market was rather light as some got an early start for the holiday. Yet not surprisingly sight-unseen Bid increases for high value coins are in place. Led by Proof Gold Type and Mint State Gold with advances of up to 30 percent. In this case the plus signs are seen among Proof Indian Gold. We see that $2.50, $5 and $10 Indian Gold is higher in Proof 65 and better grades. The $20 Saint-Gaudens Proofs are also included in this demand. Mint State Gold is benefiting as well with NGC MS65 $3 Gold pieces jumping over 30 percent equaling PCGS MS65 examples at $17,000 Bid. Indian and Saint-Gaudens Gold are higher for Mint State examples just as we observed among the Proofs.

Today's demand is spread across the market encompassing many areas. Check out the movement of some common dates. We see that modestly priced coins are also actively sought-after. For example, we note Type increases for PCGS Mercury Dimes, Buffalo Nickels and Morgan Dollars. Still, middle of the road coins are also scoring with Bidders. Isabella Quarters are up in MS65 and better. Brown Draped Bust Half Cents turned-in a strong gain for examples grading up to MS65. Walking Liberty Half Dollars of all Mints from 1934-1939 demonstrated strength for coins between $300 and $2,800. This is a market that is seeing demand at all price levels and for coins from the 18th century to the very modern issues. Still for some alert buyers bargains exist. For example even in this active market for high end Classic Commems we note that a 1918 Lincoln graded NGC67 sold at auction for $575 or 28% **below** sight-unseen Bid. Other values persist as the Franklin Halves show a propensity for apparent value as several early 1950s issues sold at various auctions for as much as 32% below sight-unseen levels. For those looking ahead The Old Colony Collection auction will take place December 6-7 in Baltimore. This sale, by American Numismatic Rarities will precede the Baltimore Coin and Currency Convention. Dealer day begins December 8 and the show will be held December 9-11. Dealers are hoping to find some fresh material at this show. This may be their last best chance to buy before the end of the year. We have listed a few of the highlights from the ANR auction.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell [illegible] and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or b[illegible] the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" – Lowest asking price during the week prior to publication (*w*eek old); "m" – Lowest asking price during the previous three weeks (*m*onth old); "t" – *T*rade during the most recent month; "lm" – Lowest asking price appearing *l*ast *m*onth; "lt" *T*rade appearing *l*ast month; "ot" *T*rade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" – auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

A Unique Opportunity For You & Your Customers

2006 FIRST STRIKE™ Gold, Silver, & Platinum Eagles

Now Available on a Financed and Hedged No-Risk Basis!

"First Strike" coins, directly from the United States Mint and graded by PCGS, are available each year for only a very limited time. And early indications are the 2006 "First Strike" issues will sell significantly more than the popular 2005 coins! These gold, silver, and platinum coins are hard to come by for the average collector. As a matter of fact, they're hard to come by for most dealers! That's why this year A-Mark Precious Metals is offering you an opportunity to acquire these coins on what is essentially a NO-RISK basis!

A-Mark is offering you "First Strike" coins directly from the US Mint for shipment to PCGS.

PCGS will grade and holder your coins and A-Mark will bill you for holdering the coins under the PCGS standard terms.

A-Mark will hedge and finance the coins from start to finish.

Since the coins are hedged, there is never a margin call. The interest rate charged for financing the coins is extremely competitive. If you act before December 1st, A-Mark will further reduce your rate. A-Mark will make a competitive bid for those coins you elect not to have graded and put in holders. Once the coins are in holders...

...A-Mark can continue to finance, insure and store your coins at a third party depository such as Brinks until you are ready to pay for them and deliver them to your customers.

These "First Strike" coins are limited. A-Mark will offer this special on a first-come, first-served basis. Act now to be able to offer your customers the unique opportunity to add a 2006 "First Strike" coin to their collection. You can own "First Strike" inventory with an initial outlay that is a mere fraction of it's actual cost, and start turning these coins into profit in a matter of weeks Remember, this offer is limited, so call today for details.

2006 FIRST STRIKES will be available January 6, 2006.

CERTIFIED COIN DEALER newsletter

Mint State Gold Type Heats Up
Baltimore Expo And Auctions Headline December

December is upon us and for many dealers the theme is all too familiar. Paralleling those being experienced by many retail consumers looking for that hot toy or "gotta have item" this holiday season, except in this case its been the dealers canvassing and chasing the numismatic marketplace for their clients as they attempt to reel in much needed items on their want lists. Granted with the holiday rush running at full tilt they maybe a little too late to capture all the sales that they had originally forecast. Yet they still want to get off on the right foot as 2006 begins.

Demand has certainly remained exceptionally strong throughout the year and it looks as if this 12-month period may prove to be quite memorable. Price levels have increased because the rare coins that are being placed with collectors are simply being removed from the market. In past years it seemed as though a coin was bought only to see it reappear at another auction for, potentially, a quick profit. That doesn't seem to be the case today as the buyers are more numerous and not in the business just to get rich quick. Dealers also point out that the collector base has shown some nice growth this year. The popular State Quarter program and the burgeoning precious metals' prices has also given continued life and vigor to the bullish rare coin market.

With this in mind we know that many dealers are reviewing their notes before taking the trip to Baltimore for the Coin & Currency Expo December 8-11 as they are sure to face fierce heated action on the ultra competitive bourse floor. Others will hope for success at auction, as American Numismatic Rarities offers the Old Colony Collection on December 6-7 as well as when the December 2005 Baltimore Auction by Bowers and Merena goes up for Bid December 9.

Granted the December sight-unseen market is beginning rather quietly. Still, this is not surprising. The light trading taking place in the sight-unseen market is a reflection of the business distractions that include: auctions, shows and holiday mail-outs. Yet a few hardy dealers have hit the electronic networks as they try to benefit during this hectic season. Several of the Bid increases we see seem to be targeting the better issues of their respective series. Among Silver Commemoratives, the Isabella Quarter and Lafayette Dollar are gaining some ground this week. Increases are taking place in MS63 and MS64 for PCGS, NGC and ANACS examples. The gap in price from MS64 to MS65 may warrant Bidders stopping at MS64. Yet (as the graph will attest) it's interesting to note that the *CCDN Coin Market Index* for Silver and Gold Commems has shown the largest gain for all series during 2005. Bids for Morgan and Peace Dollars are virtually unchanged for PCGS and NGC. However, moderate increases are seen for other 3rd party slabs as a few ANACS and ICG Morgan rarities advance. Two New Orleans keys, the 1893-O and 1895-O in Gem are higher at $115,000 and $144,000 respectively for ICG examples.

With Gold bullion over $500 per ounce Gold Type continues to sparkle as brightly as a Christmas tree as numerous buyers flock to virtually anything Gold. Not surprisingly the popular $20 Saint-Gaudens and Liberty issues are currently on many customers want lists. PCGS and NGC Type III Liberties are sharply higher in MS65 and better. In Gem, PCGS and NGC examples are each reflecting gains of over 30% and moving higher by approximately $1,000. We also note strong demand for MS64 and better ANACS Gold in several denominations. The *CCDN Coin Market Index* shows an impressive gain for Mint State Gold Type from its 2005 low of 578.88 on January 28th to its present 608.15. Not to be overlooked Proof Type is revealing some nice percentage gains as well with PCGS Liberty Nickels with Cents wanted in PR65 and PR66 with Proof 65 examples fetching $400. Buffalo Nickels report in with a solid advance for a 1916 MS66 specimen now at $650. Common date Denver Mercury Dimes are needed as well led by NGC Mint State 64FB and 65FB examples of 1943 and 1944, each gaining 10 percent or more. Walking Liberty Half Dollars are displaying dozens of plus signs for ANACS issues, mainly in the 1940s. Meanwhile, PCGS Proof Walkers are needed by the score with higher Bids of up to 7% for 1939-1942 coins in PR66 and PR67.

The Gold Rush Continues in Baltimore
Old Colony Collection Auction Claims $5.9 Million

There may be plenty of cold weather greeting dealers making the trip to the Baltimore Coin & Currency Convention this week, yet this hot market will certainly take most of the early winter's chill away. For those in attendance, Gold will most certainly be a prominent four letter word heard echoing throughout the bourse. With Gold cracking through the magical $500 barrier and having further designs on the $520 level, optimism is running high. As a matter of fact, many dealers are so swamped with Gold orders from both old and new clients that some have decided to forego the trip to Baltimore because they are conducting too much business in their shops at home. This non-stop demand for virtually anything Gold may be tiring for some; yet, we haven't heard many complaints coming from that corner.

To be certain just locating sufficient quantities of fresh material can be exacerbating, yet dealers have gone through so many periods when sales are few and far between that they have no problem riding this golden express.

Now as bullion continues its ascent and the general public gains more awareness, it is likely that many new customers looking primarily at bullion related coins will express an interest in numismatic Gold. This fervor will most assuredly translate to an increased demand for both Circulated and Brilliant Uncirculated U.S. Gold Type.

We note that one Baltimore auction is already in the books as the Old Colony Collection sale conducted by American Numismatic Rarities December 6-7 realized a healthy $5.9 million amongst spirited Bidding. We have listed a few of the many highlights. Bowers and Merena will also be holding their December 2005 sale on December 9th in conjunction with the Baltimore Convention.

The current sight-unseen market is certainly benefiting from an ongoing elevated Gold Spot. The need for material is plainly evident by positive bias seen among several series this week led not surprisingly, by Gold Type. Mint State, Proof and Early Gold Type are all under tremendous demand, seen pushing higher as a result of the increased media attention, insufficient supplies and the added intrinsic push levied by a higher Spot market. A plethora of plus signs are seen covering several denominations and grades of Gold Type as eager buyers anxiously look to add the yellow metal to their portfolios. Many buyers are looking at the more affordable entry level MS61 and MS62 examples. However, those that are looking for more numismatic bang for their bucks are chasing after MS63 and higher grades.

The $2.50, $5, $10 and $20 Liberty denominations are all higher in MS64. At approximately $1,000 for most examples it is an affordable way to break-in. You can see that at the next grade level - MS65, they become considerably more expensive. Of course Indian and Saint-Gaudens Gold are also in demand. Silver Commemoratives are trending higher as increased Bids cover a wide range of issues. For the most part, it appears that affordable (priced below $1,000) Gem MS65 and MS66 Commems are being targeted. Gold Commems are perhaps the quietest Gold segment right now with only the 1926 Sesquicentennial Quarter Eagle advancing to $4,100 Bid in MS65 for both PCGS and NGC examples. It has been awhile but broad strength has returned to the Carson City Morgan Dollars. Buyers are interested in the common and some scarcer issues but they are leaving out the toughest examples such as the 1879-CC, 1889-CC and 1893-CC. However everything else on the Morgan page this week is fair game. Plus signs are appearing from MS61 up to MS67. Some slight weakness is also evident among MS63 common dates. Peace Dollars reveal only minor activity yet if Spot Silver continues its mighty surge this situation may change very quickly. Walking Liberty Half Dollars are entertaining a myriad of increases for most examples in the 1930s as a well-known west coast dealer targets them in MS65 and MS66.

The Dallas sale by Heritage will be held December 13-14 in Dallas. Some of the many highlights include a pair of NGC MS61 1872-CC $20 Liberty; a PCGS MS65 1878 $3; a PCGS MS64 1802/1 $5 Capped Bust; a PCGS MS62 1804 Draped Bust Quarter; and, a PCGS MS65B 1800 Draped Bust Cent, S-197.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels. *www.cdnpublications.com*

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

UNPRECEDENTED SEVEN-TIME NUMISMATIC LITERARY GUILD AWARD WINNER

Traditionally, learning a lesson in the rare coin market has been very expensive. You would buy a coin for $500, find out later that it was worth only $50, and, thus, you would have to pay $450 to learn just one lesson. But now, thanks to the revised fourth edition of *The Coin Collector's Survival Manual®*, by Scott A. Travers, you no longer have to pay a fortune to learn about how to buy and sell coins profitably.

This thoroughly revised edition examines the coin field from an insider's perspective and continues to break new ground in revealing the ins and outs of coin collecting and investing. Excellent photographs and detailed charts amplify the encyclopedic, clearly written, meticulously organized text. You'll learn about the following:

- How to look at coins the way the professionals do
- **How to determine what a coin is worth and what grade the leading certification services would assign to it**
- How to spot slight friction on otherwise "Gem" coins
- How to tell the difference between proof and prooflike
- **How lighting affects appearance—and the latest in halogen flashlights**
- Altered and counterfeit detection techniques
- How to judge price guide accuracy
- Selecting and testing a coin dealer
- **How not to get ripped off if you buy coins through the mail or over the Internet — courageous information**
- Profitable - and not-so-profitable - liquidation techniques
- **How to buy and sell at conventions like the pros do**
- How to spot a cleaned and artificially toned coin
- **A comparison of PCGS versus NGC — which service does the market really favor?**
- Stunning exposé and bombshell interview on coin "doctoring"
- **Special full-color section on artificially toned and doctored coins**

SPECIAL SECTIONS ON:

- **Doctored coins, how to detect them, and the case of the doctored hoard of gold rarities that got slabbed**
- The real truth about slab services "fixed grading standard" claims and premium quality coins
- Revelations from a leading coin trader
- **A grading service founder's startling admission of modified grading standards**
- The newest tax laws

CONTAINS ALL-NEW INFORMATION ON:

- **Gold coins as an economic safe haven**
- Coin conservation services
- **Coin insurance and safekeeping in light of September 11, 2001**
- The latest Internet strategies
- **Digital photography pointers**

and much, much more!

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections of the

are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,000+ current names and addresses. And **current** is a promise taken seriously - the data base is updated **daily**. All for only $325 - well below the mailing industry standard of $75/thousand.

To make this offer even more attractive, labels are available in both First Class order or Presorted for Basic Bulk Rate mailings (you can save more than $425 over First Class postage rates!). Need just one state or region? Need a trial sample? Contact us for details!

YES, I want to order mailing labels averaging 5,000+ names from the 2005 Numismatic Dealer Directory. I understand that my $325 fee entitles me to only one usage of these names. ______________________signature

Gold Offers Bumpy Ride
Market Still Realizing Solid Demand

It has been a wild week in the rare coin market, with the accent on those whose primary revenue is from dealing in bullion and bullion related numismatic items. The price of Gold has precipitously retreated after soaring to a 25 year high earlier this month. This certainly was not a total surprise as many analysts were expecting to see some overdue profit taking simply because they believed Gold Spot had increased too far and too fast. Consequently Gold declined on December 14 as speculative investors in the precious metals bailed with some profits in hand. The drop was so steep that it nearly tested the $500 per ounce level before some buying entered. This type of volatility will probably continue for a while before the bullish trend resumes.

Fortunately this drop occurred after the Baltimore show where interest in rarities and other coins remain high. Many attending said that the Baltimore Coin & Currency Convention was a very successful show. We know that weather conditions outside the convention were snowy and cold but the market inside was toasty warm. Gold, based on advance billing was indeed the stellar performer as hordes of anxious buyers were seen joining the band wagon in an effort to diversify their portfolios. Generic Gold on the bourse was trading at exceptional levels with many dealers attempting to buy generic $20 Saint-Gaudens and Liberties in quantity. Now as the holiday season fast approaches they are getting last minute orders for Gold in all forms especially in light of the continued excitement with the move above $500.

Dealers need to buy now because their customers are waiting and willing to pay based on current levels as their patience runs thin. So in order to complete transactions dealers have to first buy the material so they can capitalize. Of course there is a risk involved as well. If you buy quantities of Gold bullion and the client backs out and the price of Gold drops (as it did), well you get the picture. Some have built in safe guards which dealers have tried to convey to those new to coins and metals. Some will advise that it is better to acquire material that has a bit of numismatic play such as $20 Libs and Saints. As an example; when the Gold Spot price takes a dip those bullion coins and bars drop in tandem with the Spot prices immediately, yet $20 Libs or Saints usually don't display the same tendency having a bit of a numismatic cushion to help insulate them. The same holds true in a rising market.

Baltimore also proved that many truly rare coins are still very much in demand. Capped Bust and Draped Bust coinage was highly sought-after. The Bust coinage has displayed a marked increased in the past year but the demand, even at these levels, still out weighs the current supply. Besides Bust material, the mega priced coins, those whose price tags are $25,000 and up are readily selling in today's market. Dealers are optimistic that, despite the recent interest rate boost by the Federal Reserve, investors still believe that rare coins are a great place for their money. They don't expect the market to slow down because there is a lot of unsatisfied demand in place.

This week's sight-unseen market is a reflection, to some degree, of the volatility taking place. We are finding a wide range of areas moving higher with a number of coins being discounted as well. Silver Commemoratives are being discounted with many issues participating. Dealers needing extra funds for auctions and shows usually obtain the money from coins that they won't have too much difficulty replacing. We do note that several Silver Commems were sold at levels below sight-unseen Bid. Gold Commems are a different story. A plethora of higher offers are sweeping thru this small series with increases of more than 3% for most. As a matter of fact Gold of any kind seems to be in demand as multiple buyers are looking for quality PCGS and NGC examples in MS64 and better. Yet even here a bargain was to be had as a NGC MS62 Liberty Quarter Eagle sold at auction for $242 some 32% below sight-unseen money. Some Morgan Dollars are also being discounted this week as several examples were sold at auction below sight-unseen Bids primarily common dates in MS66 by as much as 16 percent. So there's a bit of holiday bonus for those dealers able to take advantage of this discrepancy. Higher sight-unseen Bids are chasing 1934-D Peace Dollars in MS61 and MS62. The Type markets are quiet although Proof 64 $3 Gold is a bit higher. Discounting is seen among Walking Liberty Half Dollars with an NGC MS65 1947 taking a 22 percent hit at $136 Bid. Buffalo Nickels are trading lower as the 1929-S traded nearly 16% down at $920 for a PCGS MS66 example. Meanwhile, a 1927-S Mercury Dime in MS64 FB is entertaining a 12 percent higher sight-unseen Bid at $1,400 for a PCGS example.

Heritage conducted the Dallas sale December 13-14 in Texas where it realized over $9 million. Obviously nice material is still bringing strong money as a 1795 Flowing Hair 2 leaves Dollar graded PCGS MS62 brought $77,625. In total nearly 3,000 lots were sold and rare date Gold brought thunder as a 1930S $20 Saint graded PCGS MS66 realized $253K and a 1911 $20 Matte Proof NGC PR68 claimed $172,500.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity, including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. ★ For Dealers Only! ★ 2006 FIRST STRIKE™ American Eagle Coins ★ 100% Financed* & Hedged!

Own 2006 FIRST STRIKE Eagles On A Financed & Hedged No-Risk Basis!

A Unique Opportunity For You & Your Customers. Order your Gold, Silver, or Platinum Coins Today!

"First Strike" coins, directly from the United States Mint and graded by PCGS, are available each year for only a very limited time. And early indications are the 2006 "First Strike" issues will sell significantly more than the popular 2005 coins! These gold, silver, and platinum coins are hard to come by for the average collector. As a matter of fact, they're hard to come by for most dealers! That's why this year A-Mark Precious Metals is offering you an opportunity to acquire these coins on what is essentially a NO-RISK basis!

A-Mark is offering you "First Strike" coins directly from the US Mint for shipment to PCGS.

PCGS will grade and holder your coins and A-Mark will bill you for holdering the coins under the PCGS standard terms.

A-Mark will hedge and finance the coins from start to finish.

Since the coins are hedged, there is never a margin call. The interest rate charged for financing the coins is extremely competitive. If you act before December 1st, A-Mark will further reduce your rate. A-Mark will make a competitive bid for those coins you elect not to have graded and put in holders. Once the coins are in holders...

...A-Mark can continue to finance, insure and store your coins at a third party depository such as Brinks until you are ready to pay for them and deliver them to your customers.

These "First Strike" coins are limited. A-Mark will offer this special on a first-come, first-served basis. Act now to be able to offer your customers the unique opportunity to add a 2006 "First Strike" coin to their collection. You can own "First Strike" inventory with an initial outlay that is a mere fraction of it's actual cost, and start turning these coins into profit in a matter of weeks Remember, this offer is limited, so call today for details.

2006 FIRST STRIKES will be available January 6, 2006.

You probably *haven't* seen our work.

All you'll see is a beautiful coin.

A common first reaction to a professionally conserved coin is wonderment. Conservation reduces the ill effects of improper storage or exposure to environmental contaminants—substantially improving a coin's visual appeal.

Most conservation projects involve only the removal of surface impurities, enhancing the vibrancy of the coin's original patina.

Specific conservation focuses attention on a small area of a coin's surface to remove a spot or debris. This eliminates a visual distraction and removes the impurity that may cause further deterioration.

By returning a coin's surface to its original state, its natural beauty shines through. The professional conservation goes unnoticed, and the result is a beautiful coin.

All Eyes On Florida United Numismatists Show
Last Issue For The Year — Happy Holidays

The year is nearly over with most coin dealers feeling quite content with their businesses overall bottom line. The past twelve months have been extremely busy with a considerable number of transactions taking place each week. Business has been robust for most dealers and they are immensely satisfied with the strength and staying power of the current demand. Today's savvy customers are willing to buy specific dates and denominations at strong prices but unfortunately it usually takes a major auction or the unearthing of an old time collection to produce this supply. Many of the tougher dates and keys needed don't appear that frequently because they are in strong hands and will most likely remain off the market for extended periods. When they finally surface they are greeted with hotly contested enthusiasm by a number of Bidders also trying to fill similar voids. Not surprisingly, there were many record breaking prices taking place this year and it often occurred at public auction. However there have also been many notable transactions that took place on the bourse floor at major coin shows throughout the country. The strong demand for fresh material was omnipresent and seemed to dominate the final six months of 2005. It seems as if everyone is still chasing after the same coins. Consequently, strong upward pressure on price has ensued and levels have climbed as a result.

Gold, the hero of the coin market for much of 2005 has been extremely volatile in December. Yes, it vaulted through the $500 benchmark but has quickly succumbed to profit taking. Still, analysts are still feeling pretty bullish about the metals as we close out the year. Dealers that we have spoken with believe that 2006 is looking real prosperous as well. Their expectations are for a rare coin market that will face continued strong demand by an ever expanding and active collector base. They also anticipate continued difficulties in their quests for fresh material to satisfy them. This hectic end of the year activity combined with December and future January auctions puts added pressure on dealers to be cash ready. They are all too well aware that the January 5-8 Florida United Numismatists show taking place in Orlando is reason enough to be in a strong cash or credit position. The FUN show has traditionally been called one of the bellwether events of the coin market. It often gives us an early indication as to the direction of the market for the New Year.

Perhaps, with this in mind the sight-unseen market this final issue in December is closing out on somewhat of a mixed bag of activity. Discounting is prevalent among several series while some strong Bids are also evident. This may come as no surprise to many and may be somewhat of a blessing for many dealers as they attempt to sell off some rather easily replaced material to pad their cash positions for the rash of early January action.

Several of this week's discounted entries mean that opportunities for some are there for the taking. As usual Classic Silver Commems are the beneficiary of several lower issues. Many of these Commems, even in MS67, are rather easily replaced. So, dealers are taking advantage of this fact to generate some fast money. Relatively common Morgans under $300 are also ripe for sale. Take a look at the 1881S MS66 PCGS example bringing $184 or some 25% below sight-unseen money. A PCGS MS66 1885-O Morgan brought $253 at auction despite a current sight-unseen Bid more than 10 percent higher at $282. One astute buyer was even able to grab a NGC MS65 1923 Peace Dollar at auction for only $75, for 25 percent below the sight-unseen $102 Bid. A few other opportunities presented themselves, such as a Full Banded 1929 Mercury Dime graded MS66FB by PCGS bringing some 15% below the current active Bid of $260. A popular 1939D Walking Liberty Half graded MS66 by PCGS found a buyer at some 14% below the $430 that dealers are paying sight-unseen. Gold Commems however remain hot and are sought-after. A plethora of modestly increased Bids is seen targeting this small series again. Nearly all issues grading MS64 thru MS67 are participating. Mint State Type scored generous gains as early Copper issues gained favor. Large Cents led the charge with PCGS MS66B Classic Heads skyrocketing more than 50 percent at $20,000 Bid. A few generic Morgan and Peace Dollars are slightly higher as well while select Proof Morgans also increased. Walking Liberty Half Dollars from 1940-1947 are receiving higher Bids too. Proof Jefferson Nickels hit the skids with several Gems suffering double digit declines.

Superior will roll out the carpet for 2006 when they host the Orlando 2006 Elite Coin Auction January 2nd. American Numismatic Rarities follows on January 3rd with the Prescott Collection sale. Finally, Heritage will conduct the 2006 January Orlando, Florida (FUN) Signature Auction January 4-7.

This will be the last issue of the *Certified Coin Dealer Newsletter* for 2005. We hope that you and your loved ones have a healthy and happy holiday season. The next *CCDN* will be published on January 6, 2006.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks o Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels. *www.cdnpublications.com*

MARKET LISTINGS

MARKET columns reflect the latest dealer–to–dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales–related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" – Lowest asking price during the *week* prior to publication (week old); "**m**" – Lowest asking price during the previous three weeks (*m*onth old); "**t**" – *T*rade during the most recent month; "**lm**" – Lowest asking price appearing *l*ast *m*onth "**lt**" *T*rade appearing *l*ast month; "**ot**" *T*rade older than 2 months; " " a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight–unseen buy prices on the part of the highest visible bidder.
In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.
